

**B** (Major category) **KL M - F18** (Series) **R28** (Bending radius) **N10** (Number of chain links) **BKTM** (Joint)

Order guide  
Please refer to the series code to select the type and parameters for ordering.

**B** (Major category) **KT M - F18** (Series) **F18** (Inner width)

Order guide  
Please refer to the series code to select the type and parameters for ordering.

○ Drag chain

Code	Type	Inside height	Crossbeam	Cable placement form	Number of cavities	Material	Color	Allowable temperature	Flame retardant grade	Accessories
<b>BKLM</b>	General use	18	Semi-closed	Inner diameter open	Single cavity	Engineering plastic	Black	-20°C~80°C	UL94-V0	Joint

- H=Theoretical installation height
- H<sub>r</sub>=Actual installation height
- D=Minimum distance when the drag chain is returned to the limit position
- K=π·R+Safety amount

- Joint assembly selection:  
With hole moving end (external link)

Visual standards:  
first perspective

○ 30 links per meter of chain.

Model Code	Inner width F ①	Bending radius R ②	Number of links N ③	Joint ④	Installation size			Actual installation height HF	Outer width E	Pitch P	Max. cable diameter	Max. overhead load (kg/m)	Max. overhead length (m)
					H	D	K
