

Order guide: C (Major category), FD (Series), Q (Category), C2 (Material), 65 (Specification)

Please refer to the series code to select the type and parameters for ordering

Code	Shape	Material ①	Surface treatment	Customization design
CFDQ-C2	Concentric	S45C	Blackening	A
CFDQ-S3		SUS303	—	

- ① If rust resistance is required, please give preference to stainless steel or electroless nickel-plated products.
- ② Features: Stainless steel products can be used in corrosion-resistant environments as well as in the cleaning of food machinery, ultrasonic, and other equipment.

Visual standards: first perspective
