

C FD R - C2 - 66
 Major category Series Material Specification
 Order guide Category 1 Material 2 Specification

Please refer to the series code to select the type and parameters for ordering.

| Code | Shape | Material | Surface treatment |
|---------|-----------|----------|-------------------|
| CFDR-C2 | Eccentric | S45C | Blackening |
| CFDR-S3 | | SUS303 | — |

- If rust resistance is required, please give preference to stainless steel or electroless nickel-plated products.
- Features: Stainless steel products can be used in corrosion-resistant environments as well as in the cleaning of food machinery, ultrasonic, and other equipment.
