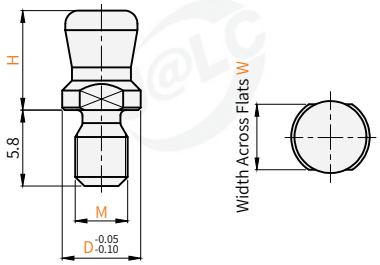
|---|---|---|---|---|
| DFAH | Clamping Pin | Tapered Type | SUS630 | Precipitation Hardening |

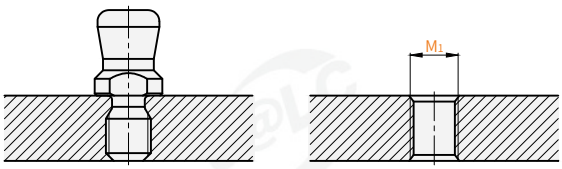


Visual standards: first perspective

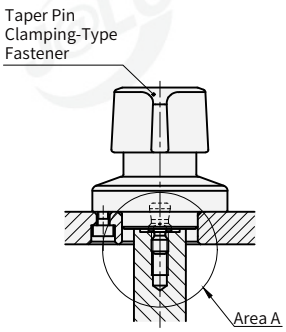
◉Due to differences in hardening treatment time and batch, the actual product may have color variations compared to the photos. The product quality is not affected.

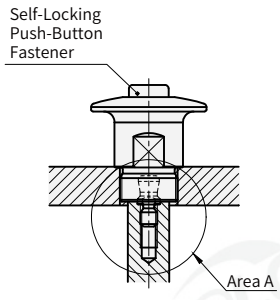
| Model | | D | M | H | W | Weight(g) | Applicable to Taper Pin Clamping-Type Fasteners |
|---|---|---|---|---|---|---|---|
| Code | Specification 1 | | | | | | |
| DFAH | 10 | 6 | M4 | 7.6 | 5 | 2 | DFAG-10 |
| | 14 | 8 | M5 | 8.7 | 7 | 3 | DFAG-14 |

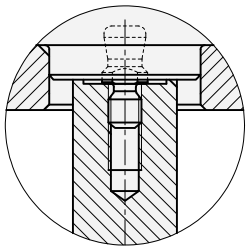
○General Mounting Method

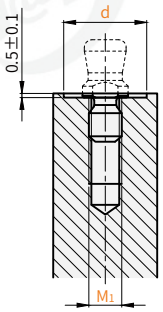


○Mounting Dimensions Table

| Model | | M1 | d |
|---|---|---|---|
| Code | Specification 1 | | |
| DFAH | 10 | M4 | 7 |
| | 14 | M5 | 9 |








○Space-Saving Mounting Method: When the mounting surface for the clamping pin (tapered) is smaller than the installation hole of the fastener and contacts the bottom surface of the fastener, please machine a countersink with a depth of 0.5 ± 0.1.
