Major category: **G**    Series: **SH A N1**    **2** Interface type    **4** Diameter  
 Order guide:    Category: **1** Appearance feature    **3** Nominal model    **5** Length  
 Please refer to the series code to select the type and parameters for ordering.

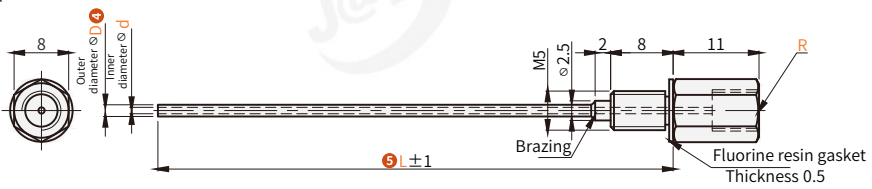

Code	Spray shape	Appearance characteristics <sup>1</sup>	Interface type <sup>2</sup>	Material	Max. operating pressure	Max. operating temperature	Recommended fluid
<b>GSHA-N1-K1</b>	Single point	External thread long type	Internal thread	SUS316	7Bar	70°C	Air, water
<b>GSHA-N2-K1</b>			Bamboo connector	SUS304			
<b>GSHA-N2-K2</b>		External thread short type	Bamboo connector				
<b>GSHA-N2-K3</b>			Hose connector				

Please use recommended fluid to ensure the spray effect.

- Features: Various specifications of hole diameter and length are available, and the tube can be bent.
- Uses: Cleaning, dust removal, cooling, drying, etc.
